

Corner Radius Template

Most windows use either 2.5", 3" or a 4" radius. Here's a template to help you determine your radius.

- **Make sure you printed this document out at full scale. 100%**
This means that the solid black line below should be 8" in diameter (from side to side).
- Place the template on the corner of your window and determine which radius most closely matches. This is the radius of your window.

Key:

- 4.25" Radius = 
- 4.00" Radius = 
- 3.50" Radius = 
- 3.00" Radius = 
- 2.50" Radius =
